

Laudato Si' Action Platform Toolkit for Partner Engagement

Introduction

The *Laudato Si' Action Platform (LSAP)* is an initiative of the Vatican's *Dicastery for Promoting Integral Human Development*, inviting dioceses, parishes, and Catholic institutions worldwide to journey toward *total sustainability in the spirit of integral ecology*.

This toolkit has been prepared to support colleagues and partners in introducing diocesan and parish leaders to the Platform. It offers ready-to-use resources for dialogue, formation, and planning — for **institutional outreach**.

Whether engaging Episcopal conferences, pastoral leaders, or diocesan offices, these materials aim to:

- Inspire dioceses to **enroll** in the Platform and take concrete ecological action.
- Provide clear, adaptable **planning and communication tools**.
- Strengthen collaboration between diocesan leadership and grassroots movements.

If a partner wishes to adapt these resources extensively for local use, **we welcome collaboration and invite them to contact info@laudatosiactionplatform.org**. We are here to support, co-develop, and accompany.
