

Learning the Language of Creation

and

All Creation Gives Praise

In the

DIGITAL VISUALIZATION THEATER

Jordan Hall of Science, University of Notre Dame

October 2, 2025

Heavy hors d'oeuvres reception at 6:00 PM. Program 6:30-8:30 PM

After a welcoming reception, we enter the DVT to hear theologian and civil/environmental engineer Sr. Damien Marie Savino, F.S.E., introduce her forthcoming book, *Learning the Language of Creation*. In it, she invites us to learn the language of creation through a journey of inner conversion that can lead us to ways of using technology in concert with creation rather than against it. We then embark upon another journey, through the entire known universe, in the planetarium program *All Creation Gives Praise*, during which we witness the vastness of the Creator's language as it has been written in the cosmos and continues to speak to us today.

Due to limited seating, pre-registration is required by September 21: <https://bit.ly/LearningReg>
