This free event is presented by the USD Center for Food Systems Transformation, the Laudate Deum Prayer Network for Climate Healing, and the Better Food Foundation. All are welcome!

Faith at the Table:

Practical Skills for Living Laudato Si' and Laudate Deum Through the Food We Serve

How does the food we serve answer Pope Francis' and Pope Leo's call to care for our common home?

Join the Better Food Foundation, the Laudate Deum Prayer Network, and USD's Center for Food Systems Transformation for a free 90-minute webinar. The webinar will feature a presentation by Dr. Gross, Director of the USD Center for Food Systems Transformation on the role of food and diet in Pope Francis' vision of an ecologically sustainable world, followed by a practical workshop led by Jennifer Channin of the Better Food Foundation on how to use behavioral science—defaults and other “nudges” to encourage values-based eating without eliminating choice.

Stay for a discussion of how to apply these values and skills in your church, on your campus, and in your community!
